Profile

Software Engineer specializing in backend development and RESTful API design across .NET Core, Node.js, and FastAPI. Experienced in full-stack and cross-platform development with Angular and React Native. Strong foundation in Clean Architecture, software design patterns, and scalable system design. Versatile problem solver adaptable across multiple technology stacks.

Education

07/2025 – 11/2025 Cairo, Egypt	Diploma in Full-Stack Web Development Using .NET Track Intensive Training Program , <i>Information Technology Institute (ITI)</i> - Intensive hands-on training in C#, ASP.NET Core MVC, Entity Framework, Angular, SQL Server, RESTful APIs, Git, and software architecture fundamentals - Developed multiple full-stack applications including e-commerce platforms, HR management systems, and LMS
04/2024 – 10/2024 Cairo, Egypt	Diploma in .NET Backend Development , <i>Digital Egypt Pioneers Initiative (DEPI)</i> - Intensive training in enterprise application development using .NET, Clean Architecture, and design patterns - Focus on building scalable backend systems with RESTful APIs, database optimization, and industry best practices
09/2020 – 07/2024 Giza, Egypt	B.Sc. in Information Technology , <i>Cairo University Faculty of Computers and AI</i> Relevant Coursework: Data Structures & Algorithms, Software Architecture, Cloud Computing, Database Systems, Operating Systems, Advanced Networks

Experience

11/2024 – 11/2025 Remote	AI Training Specialist , <i>Scale AI</i> - Enhanced and rewrote model responses in frontend web applications using React and vanilla JavaScript - Developed specialized training pipelines for SQL optimization and frontend tasks - Annotated and evaluated model outputs to improve coding accuracy and response quality
-----------------------------	---

Projects

10/2025 – 11/2025	HR Management System  - Collaborated in a 5-person agile team to develop a modular, full-stack HR Management System, handling the complete employee lifecycle from recruitment and onboarding to payroll and leave management - Implemented Clean Architecture principles ensuring separation of concerns and high code maintainability Technologies: ASP.NET Web API, Angular, SQL Server, Entity Framework Core, Clean Architecture
09/2025 – 10/2025	Salah Planner  - Developed a cross-platform Islamic productivity app with Angular web and React Native mobile clients to schedule tasks around prayer times - Implemented Clean Architecture backend with JWT auth, database-level caching, and multi-language support (English/Arabic) Technologies: ASP.NET Core Web API, Angular, React Native (Expo), SQL Server, Entity Framework Core, JWT

09/2025 – 10/2025	Vegist E-Commerce  - Engineered a Full-Stack Angular e-commerce application handling product catalogs and checkout workflows - Designed RESTful APIs with Express.js and implemented MongoDB database schema with Mongoose ODM Technologies: Angular, Node.js, Express.js, MongoDB, Mongoose
09/2024 – 10/2024	Learning Management System  - Built a course management platform using N-Tier architecture and the Unit of Work pattern, reducing database transaction overhead by 40% - Implemented role-based access control and course enrollment workflows with ASP.NET MVC Technologies: ASP.NET MVC, SQL Server, Entity Framework Core, Identity, N-Tier Architecture
01/2024 – 08/2024	Plant Disease Detection, Graduation Project  - Deployed production-ready CNN model with FastAPI backend on Azure App Service for seamless UI integration - Engineered end-to-end ML pipeline for plant disease classification with real-time inference capabilities Technologies: Python, FastAPI, TensorFlow, CNN, Azure App Service

Skills

Programming Languages

C#, JavaScript, TypeScript, Python, SQL, Bash

Frontend — Competent

Angular, HTML5, CSS3, Sass, Bootstrap

Concepts — Proficient

Object-Oriented Programming (OOP), SOLID Principles, Design Patterns, REST API Development, Software Architecture, Clean Architecture, Agile Methodologies, Unit Testing

Backend — Proficient

.NET Core, ASP.NET Web API, ASP.NET Core MVC, Entity Framework Core, LINQ, WinForms, Node.js, Express.js, FastAPI

Databases & Tools — Proficient

SQL Server, PostgreSQL, MongoDB, Docker, Kubernetes, Linux, Git, Github, Azure

Internships

03/2022 – 05/2022 Remote	Frontend Intern, Algoriza - Learned and applied frontend technologies including HTML, CSS, and JavaScript to build responsive web interfaces - Applied web development best practices to successfully deliver a responsive final project
-----------------------------	--

Certificates

Huawei Cloud Certified

Developer

Tech Essentials Associate Course

AWS Academy Graduate

Introduction to Cloud Semester

CCNA

Introduction to Networks, Cisco Networking Academy

Extracurricular Activities

02/2022 – 11/2022 Giza, Egypt	Web Development Participant, Microsoft Student Partner (MSP) Student Activity - Participated in hands-on web development workshops and collaborative projects - Recognized as Best Member for exceptional contributions and commitment to the program
----------------------------------	---

Languages

Arabic

English

Professional Working Proficiency
